

Dominic Oyugi

Full-Stack Developer | BSc Computer Science, final year

Nairobi, Kenya · dominicoyugi1@gmail.com · github.com/1-432

linkedin.com/in/oyugi-dominic-0b0537399 · Portfolio: 1-432.github.io/Portfolio

PROFILE

Final-year Computer Science student at Chuka University with hands-on full-stack experience in JavaScript, Node.js, Express and SQL. Built an attendance system in JSP and MySQL that a school actively uses, and published two projects on GitHub. Strong in algorithms and object-oriented design. Seeking a junior developer role or internship.

EXPERIENCE

Software Engineering Attachment, ICT Laboratory

St. Paul's Gekano Boys Senior School · 12 weeks

- Built an attendance system with JSP connected to a MySQL database. The school actively uses it today.
- Documented the work in weekly logbooks and a full attachment report.

PROJECTS

Student Records Manager

Node.js, Express, SQLite, JavaScript · github.com/1-432/student-records-manager

- Full-stack CRUD application with a REST API (GET, POST, PUT, DELETE) and server-side validation.
- Single-page interface that adds, edits and deletes records without reloading the page.

Algorithm Practice Log

JavaScript · github.com/1-432/algorithm-practice-log

- 10 solved problems covering arrays, strings, FizzBuzz, Two Sum and recursion, each with approach and complexity notes.

EDUCATION

BSc Computer Science, Chuka University

Final year, 2026/27

Relevant coursework: Data Structures, Analysis and Design of Algorithms, Object-Oriented Analysis and Design, Software Engineering, Database Systems, Operating Systems.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), SQL, HTML5, CSS3, JSP

Backend and data: Node.js, Express, REST APIs, MySQL, SQLite

Tools: Git, GitHub, GitHub Pages, VS Code

Concepts: Data structures and algorithms, OOAD, software engineering, debugging
